

The gloves are approved for all types of food, including fatty foods.

GRANBERG®
FEARLESS PERFORMANCE

GRANBERG 8200

PROTECTIVE GLOVES

We're proud to introduce GRANBERG 8200, a quantum leap in grip, durability, and dexterity. Nitrile with heavy granules on the palm and fingers. Sweat-absorbing cotton liner inside.

SUITABLE FOR:

Commercial fishing | Food | Metalworking & assembly operations | Body painting | Transferring liquids and solids etc.

- Approved to be used in direct contact with all types of food, including fatty foods (EN 1186).
- Soft and flexible, yet highly durable and long lasting.
- Special granules on the palm and fingers provide a superior grip.
- Soft and comfortable cotton liner absorbs perspiration and helps avoid sweaty hands.
- High dexterity increases operational efficiency and reduces hand fatigue.
